

8th July 2020

Dear Parent/Carer,

RE: Phase 3, End of Term and Full Reopening

We are now rapidly approaching the end of the summer term and the end of this academic year. It has been the most unusual year in education in recent times and we hope the summer break offers our staff, students and parents time for a well-deserved rest. With this in mind, we wanted to take the opportunity to update you about the Phase 3 arrangements for the final week of term and the recently published Government guidance about a full reopening in September.

Phase 3 of Face-to-Face Sessions

Year 10 parents should have received an electronic letter earlier this week which details the arrangements for Phase 3, where we will be offering face-to-face sessions in some options subjects. The usual sessions in English, Maths, Science and Engineering will be suspended for the final week to allow the options subject sessions to take place. If you have not received this letter, it is available on the website by clicking [here](#).

Year 12 students will not have any face-to-face sessions during the final week of term. Online learning will continue and students are expected to continue completing work from home.

End of Term Arrangements

WMG Academy closes to students and staff on Friday 17th July 2020. Online learning will continue until this date and students are expected to remain engaged. Small school for vulnerable students and the children of key workers will also finish on this date and will not take place throughout the summer.

We've been delighted with the business-like engagement of many students with our remote learning programme.

All parents of Year 10 students will be sent a separate communication next week detailing expectations for summer learning. We will outline the content which has been covered by teachers remotely to give you a clear picture of the learning journey since 23rd March. This will enable you to work with your child to identify gaps in knowledge and consider some revision. We will publish useful revision sources as well as expectations to submit work on Google Classroom which has not been completed since the Academy's closure. In this way, all students will be given an opportunity to catch up on incomplete work and prepare for the Year 11 programmes of study.

Year 12 students will receive direct communication from their teachers outlining expectations to complete work which is outstanding, as well as wider preparation for the start of Year 13.

Please be advised that when students return in September, staff will carry out comprehensive assessments to identify any gaps in knowledge caused by the enforced school closures and teaching plans will be adapted accordingly.

Full Reopening in September

As you will be aware, the government has now released detailed guidance for the planned return to school for all students in September. We know we must work towards all children accessing a full-time education again. The new guidance released by the DfE can be found [here](#).

WMG Academy for Young Engineers, Mitchell Avenue, Coventry, CV4 8DY

Whilst we are not yet in a position to describe in detail what academy-life will look like in September, we want you to know that we will always prioritise health and safety; we know that you need to be confident in our ability to manage and make safe decisions in a sometimes rapidly changing situation.

It is clear that we cannot create a totally risk-free environment. However, the work we have already done to prepare for the current phased reopening, and indeed for the autumn term makes us confident that we can balance and minimise any risks from coronavirus (COVID-19) with providing a full educational experience for children and young people. We have been preparing so that we can be agile in response to what could be a changing situation.

There are a number of principles that are now influencing our planning for September. Rigorous implementation of the Public Health England 'system of controls' will reduce the risk of transmission and make the school safer; adopting these measures includes:

- Reviewing our systems in place to make sure people who are ill stay at home and our immediate response to anyone with symptoms is fast and effective.
- Reviewing the facilities and protocols we have in place to support robust hand and respiratory hygiene when all students and staff return to the Academy.
- Reviewing our cleaning arrangements so that we can maintain enhanced hygiene across the school site. We have already increased our daily cleaning regime.
- Ensuring that we can actively engage with NHS Test and Trace as more staff and students return to the Academy, meaning we can ensure our responses are swift and targeted.

The guidance also means that making a number of fundamental changes to the way the Academy operates will be necessary. This means we can reduce social contact and maximise distancing between everyone onsite, minimising the potential for contamination and contraction of the virus. In line with the guidelines, our initial planning will consider:

- Restricting the areas of the Academy site that student bubbles are able to access.
- Staggering break, lunchtimes and start and finish times so that we are able to manage the school day with groups avoiding contact with each other as much as possible.
- Ensuring that staff are able to maintain distance from students and other staff by arranging our classrooms and modifying shared areas to accommodate this. Highly co-ordinated timings of movement and circulation around the building will also form part of our control measures.
- Rigorous risk assessment of practical subjects so that we are clear about how we will ensure that our children continue to have a broad and balanced experience whilst still keeping safe and making the most of our state-of-the-art facilities.
- Detailed planning of our extra-curricular provision and enrichment options, this is likely to be phased in over time.
- Contingency plans for remote learning in the event of a local lockdown and for any students that have to self-isolate.

Now that we have received the guidance, we will work through it and ensure that our planning is detailed, thorough and seeks to ensure students get the best possible educational experience in the safest way possible. This will take time. We ask that parents and students remain patient over the coming weeks whilst we continue to plan and prepare. We will write again in more detail about what academy-life will be like in September and the detailed arrangements for how students will return to the Academy in the first week of term.

WMG Academy for Young Engineers, Mitchell Avenue, Coventry, CV4 8DY

We appreciate that many of you will have questions about how this can be safely managed, and we want to reassure you that we are taking this responsibility very seriously. We will need to balance our aim of providing students with a high quality, full curriculum entitlement with the need to maintain stringent controls in order to minimise the risk of transmission of COVID-19 within our community.

We do understand that some students, parents and staff will be anxious about a full return to school, especially where they or their families have been shielding for a long time. Our experience to date has shown that prioritising time for conversations and support is critical and so we will ensure availability of staff to talk to those who are particularly anxious. We are committed to hearing your individual concerns and adapting our plans to address these wherever we can. Our ambition is to have everyone back in school and attendance for students will be mandatory, but we will not enforce this without great care and careful consideration for individual circumstances.

Keeping Children Safe

Whilst there are huge benefits to being online in order to stay connected to family and friends during this period, WMG Academy and the government recognises that many parents may feel concerned about the activities and content their children are accessing. The DfE have released new guidance about keeping children safe online. This guidance outlines resources to help keep children safe from different risks online and where to go to receive support and advice and is available by clicking [here](#).

Ongoing Communication

Please remember that any parental communications are available on our website by clicking [here](#). If you need to contact the Academy urgently, you can do so by calling Reception on 02476 464661, however we ask that non-urgent enquiries are made via email to info@wmgacademy.org.uk. Safeguarding concerns should include the phrase 'CONFIDENTIAL – SAFEGUARDING' in the email subject line. Please note that phone lines will not be monitored over the summer and responses from individual members of staff should not be expected.

We really appreciate the support and encouragement from parents over the last few months. It has been a particularly challenging time and hearing such positive comments from our academy community has given us the determination to keep going and make this time as beneficial for our students as possible.

Yours faithfully,

Mrs K Tague
Executive Principal

Mr M Brady
Associate Principal
